Boil Water Notice Rescinded

July 11, 2023

RRA-Howardwick Water System PWS 0650004

On July 6, 2023 the Texas Commission on Environmental Quality required the Red River Authority of Texas Howardwick public water system, PWS # 0650004, to issue a Boil Water Notice to inform customers, individuals, or employees that due to conditions which occurred recently in the public water system, the water from this public water system was required to be boiled prior to use for drinking water or human consumption purposes.

The public water system has taken the necessary corrective actions to restore the quality of the water distributed by this public water system used for drinking water or human consumption purposes and has provided TCEQ with laboratory test results that indicate that the water no longer requires boiling prior to use as of July 11, 2023.

If you have questions concerning this matter, you may contact me at 940/723-8697.

If a customer, individual, or employee wishes to contact the TCEQ, please call (512) 239-4691

Sincerely,

RED RIVER AUTHORITY OF TEXAS

Fabian Heaney
Assistant General Manager
